CONTRACTORS YOU CAN TRUST TO CARE FOR YOUR HOME'S HEALTH

Why YOUR HOMES PCP?

Joe and Dana McWilliams set out to build their dream home—and, ironically, their dream cabin only six months later. The experience with their home builder was extraordinary. By the time the house was complete, the whole family knew him so well they affectionately called him “Uncle Steve.”

The cabin project, however, was a completely different story.

The contractor accepted the deposit, put up a few walls, and then abandoned the job site. Only later did the McWilliams family discover that he had never even filed for a building permit. How could one contractor be above and beyond, while the other was the complete opposite?

That question sparked the idea for Your Homes PCP.

Even with more than 20 years of experience in the contracting industry, the McWilliams family—like any diligent homeowners—did their research. They checked credentials, verified references, and reviewed insurance documents. What they couldn't have predicted was that the cabin builder's insurance certificate was fraudulent.

From that experience, **Your Homes PCP** was created. Every specialist and contractor in the network is vetted as if they were working on our own homes—and often, they do. Homeowners are frequently unsure where to turn. We rely on recommendations from friends and family, but the truth is, we wouldn't trust just anyone to build or repair our homes.

Your Homes PCP is a collaborative network built on trust, home-health awareness, and reputable specialists who are fully vetted, licensed, and properly credentialed to work on your home.

STATS

2023 Consumer Affairs study found that 1 in 10 Americans have been victims of a contractor scam, losing an average of \$2,426.00 per incident.

Homeowners lost \$206.9 million to these scams over 14 years (avg. \$13.8m/yr), with \$82 million lost in 2021-2022 alone, according to Inspection Support Network

The FTC received 83,000 home repair/improvement/product scam reports in 2023, up from 30,000 in 2020

Baby boomers are the most likely age group to be targeted and fall victim (15%), followed by millennials (13%). Scammers often target seniors due to perceived vulnerability and access to funds.
